SUMMARY

With over 5 years of experience in frontend development, I specialize in building high performance web applications using HTML, CSS, Javascript, ReactJs and NextJs. My projects have consistently resulted in improved performance and user satisfaction. I bring a proactive approach to project leadership and technical innovation

SKILLS

Techical Skills: ReactJS, Javascript, Redux, HTML, CSS, GIT, TypeScript, NodeJs, TailwindCSS, Redux, Jest, NextJs

Industry Knowledge: UX/UI, Development Operations, Testing, Debugging

EXPERIENCE

Senior Software Engineer
Mtap technologies Pvt. Ltd.   **November 2023 – May 2024, Gurgaon**
· Led the architectural design discussions and decisions, ensuring scalability, performance, and maintainability of frontend systems.
· Maintained high code quality standards through code reviews, unit testing, and continuous integration.
· Ensured seamless user experiences across various devices and screen sizes by implementing responsive design principles and techniques.
· Mentored junior engineers, providing guidance on frontend development best practices, tools, and technologies like react, redux and typeScript.

Software Engineer
Blume Global Pvt. Ltd.   **April 2022 – October 2023, Gurgaon**
· Developed frontend pages using HTML/CSS, JQuery and React and TypeScript.
· Actively maintained current and legacy codebase, pushing out fixes and feature requests.
· Ensured efficient web development by supporting designers and app developers while resolving website performance issues.
· Delivered responsive, cross-browser compatible and accessibility compliant website.
· Expand features, refine code, and improvement processes, producing smoother operations and enhancing user engagement.

Software Engineer
Quovantis Technologis Pvt. Ltd.   **January 2020 – October 2021, Noida**
· Integrated various REST APIs and refactored old ones for better code readability and error handling.
· Actively participated in discussions regarding technical feasibility of features and brainstorming the optimal ways of implementations.
· Implemented and developed various responsive, cross-browser web pages using HTML/CSS and ReactJs and TypeScript.

Software Engineer
HCL Technologies Pvt. Ltd.   **October 2019 – December 2020, Noida**
· Implemented various APIs for handling mandate requests coming from NPCI to bank.
· Validated various XML Requests and Responses.
· Developed a web application with Spring Boot, incorporating RESTful APIs and CRUD operations.

PROJECTS

Autologix
Mtap Technologies Pvt. Ltd. · www.autologix.io · November 2023 – May 2024
· Guided junior team members through code reviews, pair programming sessions, and one-on-one coaching to enhance their skills and ensure code quality.
· Systematically updated and improved legacy codebase to enhance readability, maintainability, and performance without introducing new bugs.
· Restructured the code to follow best practices, including modularization, componentization, and adherence to design patterns such as MVC or Flux.
· Designed and implemented a scalable and maintainable frontend architecture using industry-standard practices and frameworks.
· Set up and managed state using tools like Redux, MobX, or Context API, ensuring a predictable and centralized application state.
· Ensured new features and existing functionalities works flawlessly across different browsers and devices.

LiveSource

Blume Global Pvt. Ltd. · https://www.livesource.com/ · April 2022 - October 2023

· Migrated the legacy Codebase to React.
· Identified and refactored performance bottlenecks, resulting in faster load times and a more responsive user interface.
· Implemented significant new features, such as user authentication, real-time updates, or complex data visualizations, improving the application's functionality and user experience.
· Designed and developed user-friendly interfaces using modern frontend frameworks like React ensuring a seamless user experience.

RareEdition

Quovantis Technologies · https://www.rareedition.com/ · January 2020 - August 2020

· Implemented pixel perfect design for each pages using HTML, CSS and Javascript.
· Assisted closely with backend developers, designers, and product managers to ensure cohesive development and alignment with project goals.
· Actively participated in Agile ceremonies, such as daily stand-ups, sprint planning, and retrospectives, contributing to the iterative improvement of development processes.

Western Union

HCL Technologies Pvt. Ltd. · October 2019 - December 2021

· Developed unit tests with JUnit and Mockito.
· API Integration in Frontend using axios.
· Validated XML Request and Response from NPCI payment gateway.

EDUCATION

PG Diploma in Advanced Computing

Centre for Development of Advanced Computing · Noida · 2019

Bachelors of Technology in Civil Engineering

Inderprastha Engineering College · Ghaziabad · 2018

CERTIFICATIONS

FullStack Development

IIIT Bangalore · 2019
